Day 1 Wrapup

Paul Macklin, Ph.D.
@MathCancer

PhysiCell Project

July 26, 2021

Recap

- Session 2: Introduced basic workflow
  - load and build model, tweak parameters, run, and look at data
- Sessions 3-4: Explored cell phenotype
- Session 5: Introduced intermediate workflow
  - Start template, setup ME and cell defs in GUI, run model and visualize.
- Kicked off brainstorming!

Tomorrow

- Session 6 (**overnight async**):
  - Custom cell data, parameters, and access from within C++
- Session 7: Introduce full workflow
  - Start with intermediate workflow, then customize C++ functions
- Session 8: Cell-cell communication
- Continued brainstorming and team formation

Funding Acknowledgements

PhysiCell Development:

- Breast Cancer Research Foundation
- Jayne Koskinas Ted Giovanis Foundation for Health and Policy
- National Cancer Institute (U01CA232137)
- National Science Foundation (1720625)

Training Materials:

- Administrative supplement to NCI U01CA232137 (Year 2)
